

FOR IMMEDIATE RELEASE

**AURALEX ACOUSTICS INTRODUCES REVOLUTIONARY
NEW CONCEPT IN SOUND CONTROL AT AES 2008**

Innovative Custom-Printed Artistic Acoustic Panels Make Industry Debut

SAN FRANCISCO, CA, SEPTEMBER 23, 2008 – Auralex Acoustics, the industry leader in innovative sound control solutions, is breaking new ground by launching a gallery of custom-printed acoustical panels at this year's AES show (Booth 301). **Auralex Acoustics is exclusively the first to market SonicPrint**, its custom-printed, artistic ProPanels featuring "*The Art of Sound*" theme which blends unlimited design and style options for any room with the company's acoustically proven technology of its ProPanel product line.

SonicPrint custom-printed, artistic ProPanels are fabric-covered acoustic absorptive panels designed as artwork. For the home theater enthusiast, this exclusive offering opens the door to numerous home theater décor options, as the acoustical panels are camouflaged under the design of the customer's choice. Users are no longer limited to single color fabric choices, and can now outfit any space with paintings and drawings of any kind. Auralex is also currently negotiating several licensed properties to provide additional graphic options.

"SonicPrint was the next natural step for Auralex," says Tim Martin, director of sales and marketing for Auralex Acoustics. "We recognized a void in the home theater and home recording markets, as acoustical treatments were limited to single color fabrics. Home décor and aesthetically pleasing environments are important to our customers and now, with the launch of SonicPrint, Auralex offers the best of both worlds, a high-quality acoustical panel with nearly limitless style and design options."

Auralex ELiTE ProPanels are designed to reduce unwanted room reflections, slap and flutter echoes and provide a more pleasing and accurate listening environment. ELiTE ProPanels have a fiberglass core with chemically-hardened

edges. From stock 2'x2'x1" and 2'x4'x1" panels perfect for small room environments, to custom 4'x8'x2" panels enabling full-frequency control of large spaces, ELiTE ProPanels provide professional, aesthetically-pleasing acoustic treatment in any facility. All ProPanels meet the Class A fire rating per ASTM E84, use in areas with strict fire codes. Standard wall-mounting hardware is included with all orders for easy installation.

Custom ProPanels allow virtually unlimited options regarding acoustic panel design. Custom ProPanels are available in any size up to 5'x10' with a thickness of either 3/4", 1", 2" or 4". Beyond standard rectangular panels, custom shapes, corners or edging can be created for a truly unique and stunning product.

About Auralex Acoustics, Inc.

Located in Indianapolis, Auralex Acoustics was founded in 1977 with a mission to provide top-performing acoustical treatment products at the best value.
