

FOR IMMEDIATE RELEASE

AURALEX ACOUSTICS SHOWCASES SONOSUEDE SYSTEM AT CEDIA 2007

DENVER, CO, SEPTEMBER 5, 2007 — Auralex Acoustics, the industry leader in innovative sound control solutions, showcases its SonoSuede System at CEDIA 2007 (Booth# 229). A highly decorative and complete do-it-yourself room treatment system designed for home theater applications, as well as professional and home recording studios, the SonoSuede System's distinctive design is a cost-effective solution that tames first reflections and low frequency anomalies. Additionally, the system's unique mounting blocks provide superior acoustic and exceptional aesthetic benefits.

The SonoSuede System — consisting of the HT and Pro models — offers greater diversity and benefits, while presenting a wider multitude of decorative options. The SonoSuede Pro System features four 16"x48"x2" thick back-beveled panels predominantly used for corner trapping, and eight 16"x48"x1" rectangular-shaped back-beveled panels for a total of 64 square feet. The SonoSuede HT System consists of four 16"x48"x2" thick back-beveled panels and eight trapezoidal-shaped square-edge panels 16"x48"x1", for a total of 54 square feet.

"The SonoSuede System provides a cost-effective solution that will satisfy professionals and hobbyists alike," says Tracy Chandler, director of sales and marketing for Auralex Acoustics. "We have been able to meet the demands of professional-level acoustics for optimal sound recording, while catering to the evolving audio and video home theater market with this unique multifunctional SonoSuede System. Its synthetic suede fabric provides the acoustical transparency and visual allure that are critical in today's home theater and professional studio applications."

Priced at \$1,399 suggested retail, \$1,199 MAP, either SonoSuede System is available in the following stock color combinations: black/red and black/tan. Other color combinations are available as custom orders.
