

New and Improved!

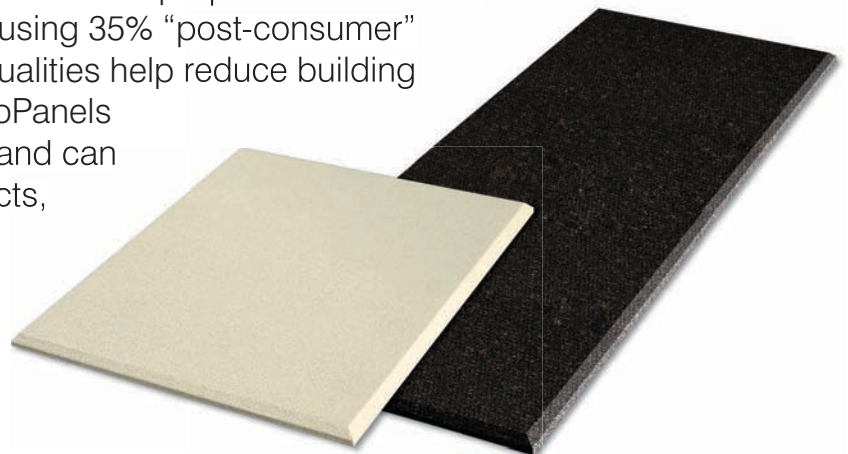

## Elite ProPanels™

- GREENGUARD Indoor Air Quality Certified
- GREENGUARD Children & Schools Certified
- LEED Qualified
- 35% Post-consumer (Curbside) Recycled Content
- Formaldehyde and Phenol Free

Auralex® Acoustics is proud to announce our new and improved Low Emission ELiTE ProPanel. A new method of manufacturing eliminates the use of formaldehyde and phenol from the fabrication process. This breakthrough will help Auralex redefine the industry standard for fabric wrapped acoustical panels. The new ELiTE ProPanels emit a lower amount of Volatile Organic Compounds (VOC's), achieving both GREENGUARD Indoor Air Quality and GREENGUARD Children & School Certifications. Lower emissions promote better air quality which has been cited by the EPA as a way to improve health and productivity in schools, homes and commercial buildings.

The new ELiTE ProPanels maintain their acoustical properties and "Class A - Fire Rating." They are manufactured using 35% "post-consumer" recycled material, and their absorptive qualities help reduce building energy demand. Low emission ELiTE ProPanels now comply with all LEED Certifications and can now be specified in LEED building projects, whether new construction or retrofit. The LEED green building program is a voluntary, consensus-based national rating system for buildings designed, constructed and operated for improved environmental performance.

## Contribution to LEED Requirements

LEED Credit Category	Contribution	Points
<b>Materials and Resources</b>		
MR Credit 4.1 Recycled Content: 20%	ELiTE ProPanels are now manufactured using a minimum of 35% "post-consumer" recovered materials.	1 point
MR Credit 4.2 Recycled Content: 20%	ELiTE ProPanels are now manufactured using a minimum of 35% "post-consumer" recovered materials.	1 point plus MR Credit 4.1
<b>Energy and Atmosphere</b>		
EA Credit 1 Optimized Energy Performance	ELiTE ProPanels help reduce building energy demand and compliance with energy costs.	1-10 points
<b>Indoor Environmental Quality</b>		
EQ Credit 3.2 Indoor Air Quality	ELiTE ProPanels are GREENGUARD Certified for low VOC emissions.	1 point
<b>Innovation and Design</b>		
ID Credit 1-1.4 Innovation in Design	ELiTE ProPanels can be used in innovative designs that have both environmental and health benefits.	1 point

Our new formula for fiberglass sound absorption products will now also be found in:

- SonoSuede Panels™
- ProBaffles™
- ProBanners™
