Auralex[®] Offers SonicPrint[™] Artistic Acoustical Panels

INFOCOMM, ORLANDO, FL, JUNE 12, 2013 – [Auralex[®] Acoustics, Inc.](http://www.auralex.com) is offering its award-winning SonicPrint[™] acoustical panels, the latest innovation in acoustical absorption. Combining Auralex's renowned acoustical treatment technology with custom-printed images, SonicPrint Acoustical Panels allow contractors and system integrators to choose from Auralex's "art" gallery or submit their own design for a one-of-a-kind look. SonicPrint panels help users control reflected acoustical energy in a way that optimizes the acoustical architecture of their room without sacrificing aesthetics. Available in a variety of custom sizes.
