

HoverMat™ Drum Isolation Mat

USER GUIDE

Thank you for purchasing an **Auralex® HoverMat™** Drum Isolation Mat

It's ability to dramatically improve the resolution of your drum kit is remarkable! By isolating your kit from structural resonances, hollow stages and risers, you will experience decreased coloration and increased clarity resulting in a cleaner tone and more focused detail.

- 1 Remove the **HoverMat** from the supplied travel sack.
- 2 Unroll your **HoverMat** in the desired location, carpet side up.
- 3 Set your drum kit up on top of the **HoverMat** making sure the critical components like kick, snare and tom's are on top of the mat.
