

HEMISPHERE™

Model 180 3D Sound Diffusors

Auralex® Hemisphere™ Model 180 3D Sound Diffusors combine shape and high-impact hardness to diffuse sound evenly across the room to control “flutter & echo” effects. The Auralex Hemisphere is a great choice for tracking spaces, control rooms or any environment in need of controlling sound reflections. The Hemisphere helps maintain a “live” sound and a 3D sense of openness to the room.

In addition to our standard fire-rated Hemisphere, custom versions are available with added absorption for additional control. Hemispheres are available in their natural textured white finish, which can be painted, and in two fabric finishes to match our ProPanel series.
