

Ceiling Mounting Large Clouds:

“D” Ring for 1”- 2” Panels

Application

For ceiling mounting 1” - 2” fiberglass acoustical Clouds with metal plate and “D” Ring.

Description

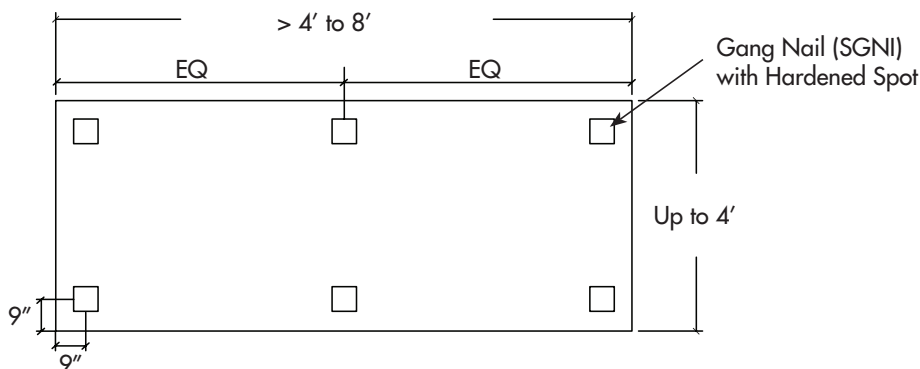

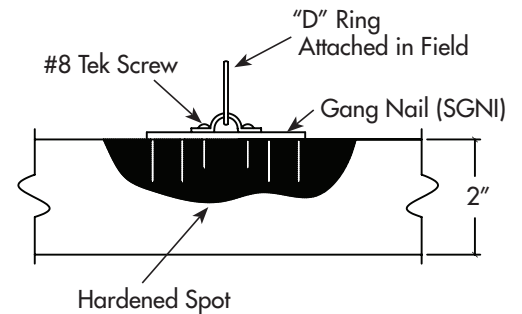

This installation technique uses a Small Gang Nail (SGNI) and “D” Rings to hang single units individually.

Installation is as follows:

1. Attach “D” Rings to metal plate using two (2) tek, #8 x $\frac{3}{4}$ ” screws.
2. Using $\frac{1}{8}$ ” aircraft cable or other suitable hanging material, secure one end to “D” Ring (hanging cable or other material by others).
3. Hang Clouds using all of the attachment points. Secure other end of the cable or chain to an appropriate structure above (structure by others).
