

Thank you for purchasing **SonoLite™ Absorption Panels**. They are a great solution to improve both the aesthetics and sonic clarity of any home studio or small home theater.

# SonoLite™ Panels

## Installation Tips & Guidelines

### Wall Installation:

**Auralex® EZ-Stick™ Pro Tabs included:**

- 1 Using a level, locate where the panels will hang. Use a pencil to mark the final locations on the walls.
- 2 Spot clean the target attachment points on wall with rubbing alcohol.
- 3 Separate the **EZ-Stick Pro** tabs from each other. Remove one of the release layers from the tab and attach to the rear surface of the panel just inboard of the fabric edge. Repeat for the remaining tabs. *(use 4 tabs per panel)*
- 4 Remove the second release layer from all of the **EZ-Stick Pro** tabs, align with the locating marks on the wall and press firmly on the front side of the panel, opposite the tabs to adhere to the wall.

# SonoLite™ Bass Traps

## Installation Tips & Guidelines

### Wall Installation:

**Auralex® EZ-Stick™ Pro Tabs included:**

- 1 Using a level, locate where the panels will hang, in either a horizontal or vertical orientation where walls or walls & ceilings meet (*typically a corner*). Use a pencil to mark the final locations on the adjoining walls.
- 2 Spot clean the target attachment points on wall with rubbing alcohol
- 3 Separate the **EZ-Stick™ Pro** tabs from each other. Remove one of the release layers from the tab and attach to the rear, mitered surface of the panel just inboard of the fabric edge. Repeat for the remaining tabs. *(use 4 tabs per panel)*
- 4 Remove the second release layer from all of the **EZ-Stick™ Pro** tabs, align with the locating marks on the wall and press firmly on the front side of the panel, opposite the tabs to adhere to the wall.
